

QDialog

SnapshotDialog

SnapshotDialog

```
classDiagram
    SnapshotDialog --> QDialog
```

The diagram illustrates a generalization relationship between two classes. A box labeled 'SnapshotDialog' is positioned at the bottom center. Two lines extend upwards from the top edge of this box, branching out to point at the bottom edges of two boxes above it. The box on the left is labeled 'QDialog', and the box on the right is labeled 'SnapshotDialog'. The arrows indicate that 'SnapshotDialog' is a generalization (or inheritance) of 'QDialog'.
